# New Collection of Works

by Kambiz Hazratpour

My work is a fusion of culture and art. The art of calligraphy in Islamic culture is a transcendent art. In Islamic calligraphy, the beauty of letters and words along with their meaning is important. The general atmosphere of my works is influenced by this culture. Short phrases that are repeated And have a special meaning. Creating a semantic and dynamic space is a feature of my work. In these works, various inks and sprays have been used.
